MINDFULNESS RETREAT FOR LEADERS

AI-Enabled Inner Leadership Reset

A SIGNATURE EXECUTIVE PROGRAM BY GOA INSTITUTE OF MANAGEMENT

 **25 – 27 November 2026**

 **Venue: GIM Campus, Goa**

WHY THIS RETREAT

In today's high-velocity world, leaders operate under relentless cognitive pressure, constant decision-making, and digital overload. Over time, this leads to decision fatigue, emotional exhaustion, and reactive leadership. Yet, leaders rarely receive structured spaces to pause, recalibrate, and reconnect with their inner clarity.

This retreat is designed as a science-backed, deeply immersive leadership reset. Combining mindfulness practices, neuroscience insights, and AI-enabled biofeedback, the program helps leaders slow down, observe their internal patterns, reframe their relationship with work and life, and return with renewed clarity, presence, and purpose.

Participants measure physiological and cognitive vitals before and after the retreat, experience structured calming and self-discovery interventions, and leave with evidence-based insights into their stress patterns, attention levels, and leadership behaviours.

WHO SHOULD ATTEND

- ◆ CXOs and Senior Leadership Teams
- ◆ Bureaucrats and Public Sector Leaders
- ◆ Entrepreneurs and Startup Founders
- ◆ Academic and Institutional Leaders
- ◆ Healthcare and Social Sector Leadership
- ◆ High-Potential Leadership Talent Preparing for Larger Roles

DAY 1 – CALMING THE SYSTEM (FROM NOISE TO STILLNESS)

Participants begin by measuring their baseline physiological and cognitive vitals using AI-enabled tools. The day focuses on breathwork, nervous system reset, digital detox immersion, reflective dialogue, and evening nature-based mindfulness to slow the mind and body.

Session 1: Arrival & Psychological Settling

- › **Theme:** Transition from busyness to presence
- › **Focus Areas:** Mental slowing, safety, openness
- › **Pedagogical Intervention:** Silent arrival, grounding exercise, reflective prompts
- › **Facilitator Tools:** Soft music, reflection cards, guided breathing script
- › **Facilitator Notes:** Do not rush. Tone-setting session. Avoid lectures.
- › **Preparation References:** Jon Kabat-Zinn (Mindfulness-Based Stress Reduction), Polyvagal theory basics

Session 2: AI Baseline Vitals Mapping

- › **Theme:** Self-awareness through data
- › **Focus Areas:** HRV, stress indicators, attention span, sleep
- › **Pedagogical Intervention:** Wearable-based measurement + guided interpretation
- › **Facilitator Tools:** HRV devices, assessment dashboards
- › **Facilitator Notes:** Avoid technical overload; focus on awareness, not diagnosis.
